# Executive Summary <br> Superintendent's Comments on MCAS 

September 20, 2013

Massachusetts Comprehensive Assessment System (MCAS) results for 2013 show the Cambridge Public Schools making progress as we pursue our vision of academic excellence and social justice for all students. The number of district schools designated as Level 1 , reflecting significant success in closing achievement gaps, more than doubled in 2013 compared to 2012. Nine of the district's 17 schools were designated as Level 1 in 2013 compared to four in 2012. This number included six elementary schools (Cambridgeport, Fletcher-Maynard, Haggerty, Martin Luther King, Jr., Morse and Tobin,), two upper schools (Cambridge Street and Rindge Avenue), and Cambridge Rindge and Latin School.

Level 2 schools included the Amigos, Baldwin, Graham and Parks, Peabody, Putnam Avenue, and Vassal Lane. These are schools that met some, but not all, of their improvement targets. We are especially pleased by the performance of the city's new upper schools in their first year of operation.

We acknowledge the hard work of the Cambridge community in the successful launch of the district's new upper schools. Change is never easy, and the magnitude of transformation we experienced last year was unprecedented in Cambridge, as we moved from a JK-8 to a JK-5 system with upper schools. We applaud and thank the students, staff, and families, particularly in grades 6-8, for maintaining their focus on achievement while we transitioned to the upper school model.

Students in grade 8 demonstrated particular strength, outperforming the state in the percentage of students scoring proficient and advanced in math and science. In addition, the percentage of grade 8 students scoring proficient and advanced increased significantly over the district's own 2012 performance, by 8 percentage points in math, 6 percentage points in English language arts, and 3 percentage points in science.

Our strides toward excellence in 2013 were tempered, however, by persisting inequities in proficiency across student sub-groups, and the designation of two elementary schools as Level 3 schools (Kennedy-Longfellow and King Open). Statewide, 300 of 1614 schools are labeled as Level $3 ; 77 \%$ of Level 3 schools are located in urban school districts. Two of those 300 schools are in our city. Under the state system, districts are assigned the level of their lowest performing school. As a result, CPS has been designated a Level 3 district, and will be receiving state technical assistance and support as well as progress monitoring.

The district was on target for narrowing proficiency gaps in math and science in 2013, meeting state-defined goals, and improved below target in English language arts. Student growth was below target in English language arts and math for high needs, Special Education, Black, and Hispanic students, however. In addition, various student groups achieved increases in the percentage of student scoring proficient and advanced; however, the Composite Performance

Index, measuring the overall performance of all students, remained largely unchanged from 2012 for most student groups. English language learners were the clear exception, achieving the greatest gains compared to 2012 performance of all student groups. English language learners achieved a 12-point increase in the Composite Performance Index score in science, a four-point gain in English language arts, and a three point gain in math. Student growth for these students was above target in English language arts and on target for math.

Over the past five years, the district's increase in the percentage of students scoring proficient and advanced, in both English language arts and math, has generally outpaced the state for all student groups. In English language arts, the percentage of students proficient and advanced increased 3-12 percentage points across all student groups; in math, the increase ranged from 813 percentage points. While proud of the district's many achievements, we also acknowledge the unacceptable persistence of the district's achievement gaps. We are Cambridge, with business, community, higher education, and financial resources that most districts can only dream of. The call for us to eradicate these gaps sounds loudly in this city-and we must find new and even more effective ways to respond to that call.

CPS has already begun the work of responding to its 2013 results, at both the school and district levels. Using a state-recommended framework, Level 3 schools will be conducting a selfassessment to pinpoint achievement issues. School teams will work with district leaders to identify improvement strategies, revise School Improvement plans, implement, and monitor progress. The schools and district will receive assistance from the Department of Elementary and Secondary Education in this process.

We are committed to improving teaching and learning in all schools, for all students. The district has recently developed a new approach to curriculum evaluation and program review, and established a new professional development committee co-chaired by district and Cambridge Education Association leaders. In addition, the district is implementing a tiered system of instruction called Response to Intervention (RTI) in all elementary schools. RTI ensures that all students receive high quality core instruction with proper supports and interventions before achievement gaps develop. These are just a few examples of critical improvements underway in the district.

We have full confidence that the improvements this district began with the Innovation Agenda will continue, yielding even greater results for ALL schools and ALL students, next year and in the years to come.

Jeffrey M. Young
Superintendent of Schools

## Accountability

## State Accountability System

The Massachusetts Department of Elementary and Secondary Education (DESE) instituted a new Accountability \& Assistance Level system in 2011. Each school is issued an Accountability Status report annually indicating whether the school has met its gap narrowing goals.

The 4-year cumulative Performance and Progress Index (PPI) is used to measure progress toward these goals. The PPI takes into account both performance and growth as well as giving extra credit for moving students into advanced and out of warning. The PPI includes scores for English Language Arts, Mathematics, and Science, as well as high school graduation rates and annual dropout rates.

Each year, an annual PPI is calculated for each subgroup and then a weighted average of the last four years of annual PPIs is calculated. This 4-year Cumulative PPI is used to determine whether schools are reaching their gap narrowing goals. If a school scores 75 points, then it has reached its target.

## A Visual Look at PPI

- PPI (performance and progress index) is a new measure designed to assess district and school improvement that includes both growth and proficiency.
- PPI replaces AYP (Adequate Yearly Progress), as a measure of Accountability.
- PPI includes data on narrowing proficiency gaps, growth (SGP), MCAS participation, graduation rates and dropout rates.
- All schools/districts must narrow achievement gaps by 50\% over a six-year period (20112017).

## Components of PPI (Progress and Performance Index)

## Cumulative Aspect of PPI

For a school to be considered to be making progress toward narrowing proficiency gaps, the cumulative PPI for all students and high needs students must be 75 or higher.

## Accountability Status of CPS Schools and District

Schools are classified into a level based on a four-year trend. Districts are classified based on the level of the district's lowest performing school. The chart below describes the Accountability Levels in more detail.

In 2013, nine (9) CPS schools were classified as Level 1 Schools - Cambridgeport, Fletcher Maynard Academy (FMA), Haggerty, King, Morse, Tobin, Cambridge Street Upper School (CSUS), Rindge Avenue Upper School (RAUS), and CRLS.

Six (6) CPS were classified as Level 2 Schools - Amigos, Baldwin, Graham and Parks, Peabody, Putnam Avenue Upper School (PAUS), and Vassal Lane Upper School (VLUS).

Two (2) of the district's schools were classified as Level 3 Schools - Kennedy-Longfellow and King Open. Cambridge has been designated a Level 3 District because one or more of our schools was designated Level 3.

## Description of Massachusetts Accountability Levels

| Level 1 | Meeting gap narrowing goals | Schools for which the cumulative PPI for the "all students" and high needs groups is 75 or higher that do not otherwise meet the criteria for classification into Levels 2-5. |
| :---: | :---: | :---: |
| Level 2 | Not meeting gap narrowing goals | Schools for which the cumulative PPI for the "all students" or the high needs groups is 74 or lower that do not otherwise meet the criteria for classification into Levels 3-5. |
| Level 3 | Among lowest performing 20\% of schools | Schools placing in the $20^{\text {th }}$ percentile or lower relative to other schools serving the same or similar grades that do not otherwise meet the criteria for classification into Levels 4-5 |
|  | Among lowest performing 20\% of subgroups | Schools with one or more student subgroups (A) placing in the $20^{\text {th }}$ percentile or lower relative to all subgroups in the state, and (B) placing in the $20^{\text {th }}$ percentile or lower relative to that particular subgroup within the grade span, that do not otherwise meet the criteria for classification into Levels 4-5; designated a focus school |
| Level 4 | Among lowest achieving and least improving schools | Level 3 schools classified into Level 4 by the commissioner |
| Level 5 | Chronically underperforming school | Level 4 schools classified into Level 5 by the commissioner |

## 2013 Accountability Status of CPS Schools

The chart below gives detailed information about the accountability status of each school.

| School | Subgroup | 4-year Cumulative PPI | Met Target | School Level |
| :---: | :---: | :---: | :---: | :---: |
| Amigos | Aggregate | 93 | YES | Level 2 |
|  | High Needs | 60 | NO |  |
| Baldwin | Aggregate | 80 | YES | Level 2 |
|  | High Needs | 71 | NO |  |
| Cambridgeport | Aggregate | 87 | YES | Level 1 |
|  | High Needs | 83 | YES |  |
| Fletcher/Maynard | Aggregate | 86 | YES | Level 1 |
|  | High Needs | 100 | YES |  |
| Graham \& Parks | Aggregate | 71 | NO | Level 2 |
|  | High Needs | 74 | NO |  |
| Haggerty | Aggregate | 93 | YES | Level 1 |
|  | High Needs | 94 | YES |  |
| Kennedy - <br> Longfellow | Aggregate | 44 | NO | Level 3 |
|  | High Needs | 44 | NO |  |
| King Open | Aggregate | 74 | NO | Level 3 (Focus School) |
|  | High Needs | 66 | NO |  |
| King | Aggregate | 89 | YES | Level 1 |
|  | High Needs | 95 | YES |  |
| Morse | Aggregate | 95 | YES | Level 1 |
|  | High Needs | 98 | YES |  |
| Peabody | Aggregate | 73 | NO | Level 2 |
|  | High Needs | 76 | YES |  |
| Tobin | Aggregate | 89 | YES | Level 1 |
|  | High Needs | 89 | YES |  |
| CSUS | Aggregate | 77 | YES | Level 1 |
|  | High Needs | 80 | YES |  |
| PAUS | Aggregate | 75 | YES | Level 2 |
|  | High Needs | 64 | NO |  |
| RAUS | Aggregate | 82 | YES | Level 1 |
|  | High Needs | 80 | YES |  |
| VLUS | Aggregate | 62 | NO | Level 2 |
|  | High Needs | 65 | NO |  |
| CRLS | Aggregate | 88 | YES | Level 1 |
|  | High Needs | 89 | YES |  |

## Overall MCAS Performance

## Percent of Students at Proficient/Advanced Performance Levels

## English Language Arts

With respect to the performance of all CPS students tested in English Language Arts in grades 3$10,68 \%$ students scored proficient or advanced as compared to $69 \%$ of students across the state. This represents a $2 \%$ increase from the prior year and a $7 \%$ increase over the past 5 years for CPS. The five year trend for the state reflects a $2 \%$ increase.

## Subgroup Performance

When analyzing the results of CPS subgroups, the district looks at annual results as well as trends over time. With the exception of ELL/FELL and White students, subgroup performance in English Language Arts did not increase significantly from 2012-2013.

However, it should be noted that the state considers sustained improvement to be an increase of five (5) or more percentage points over a five year period. Using these guidelines, all subgroups with the exception of Students with Disabilities, ELL/FELL and African American/Black sustained improvement from 2009 to 2013 with increases of $5 \%$ or higher.

The work of the district with respect to addressing proficiency gaps among student groups continues to be a highest priority.

## ELA - All Grades - \% Proficient/Advanced 2012-2013

|  | CPS |  | State |  |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |
| All Students | $66 \%$ | $68 \%$ | $69 \%$ | $69 \%$ |
| Sts. w/ disabilities | $30 \%$ | $31 \%$ | $31 \%$ | $30 \%$ |
| ELL/FELL | $26 \%$ | $33 \%$ | $34 \%$ | $34 \%$ |
| Low-Income | $50 \%$ | $51 \%$ | $50 \%$ | $50 \%$ |
| African American/Black | $49 \%$ | $49 \%$ | $50 \%$ | $50 \%$ |
| Asian | $77 \%$ | $79 \%$ | $77 \%$ | $78 \%$ |
| Hispanic/Latino |  | $55 \%$ | $45 \%$ | $45 \%$ |
| White | $80 \%$ | $84 \%$ | $76 \%$ | $76 \%$ |
| High Needs | $50 \%$ | $50 \%$ | $48 \%$ | $49 \%$ |

## ELA - All Grades - \% Proficient/Advanced 5 year trend 2009-2013

|  | CPS -ELA |  | CPS | State <br> change |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 0 9}$ | $\mathbf{2 0 1 3}$ |  |  |
| All Students | $61 \%$ | $68 \%$ | $7 \%$ | $2 \%$ |
| Sts. w/ disabilities | $27 \%$ | $31 \%$ | $4 \%$ | $1 \%$ |
| ELL/FELL | $30 \%$ | $33 \%$ | $3 \%$ | $4 \%$ |
| Low Income | $45 \%$ | $51 \%$ | $6 \%$ | $5 \%$ |
| African American/Black | $46 \%$ | $49 \%$ | $3 \%$ | $4 \%$ |
| Asian | $73 \%$ | $79 \%$ | $6 \%$ | $4 \%$ |
| Hispanic/Latino | $43 \%$ | $55 \%$ | $12 \%$ | $5 \%$ |
| White | $79 \%$ | $84 \%$ | $5 \%$ | $2 \%$ |

## ELA Proficiency by Grade Level

There were improvements from 2012 to 2013 in the percent of students scoring in the proficient/ advanced categories at grades $4,5,8$ and 10 . Grade 4 proficiency exceeded that of the state by 6\%.

Although proficiency rates in grades 3,8 and 10 were within $1 \%$ of the state performance, the results for grades 5, 6 and 7 are still below the state. Proficiency rates for grade 3 declined by $6 \%$ from the prior year. There was also a decline in ELA proficiency at grade 7 from previous years with proficiency $7 \%$ below the state average.

The results for grade 10 reflect a $4 \%$ increase from 2012. It should also be noted that CPS proficiency results for grade 10 increased by $20 \%$ over a five year period. The increase in proficiency over five years across the state is $10 \%$.

## MCAS 2013-\% Proficient/Advanced in ELA by Grade Level 2011-2013

|  | CPS |  |  |  | State |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |
| Grade 3 | $59 \%$ | $64 \%$ | $58 \%$ |  | $61 \%$ | $61 \%$ | $57 \%$ |
| Grade 4 | $47 \%$ | $51 \%$ | $59 \%$ |  | $53 \%$ | $57 \%$ | $53 \%$ |
| Grade 5 | $63 \%$ | $59 \%$ | $63 \%$ |  | $67 \%$ | $61 \%$ | $66 \%$ |
| Grade 6 | $62 \%$ | $66 \%$ | $64 \%$ |  | $68 \%$ | $63 \%$ | $67 \%$ |
| Grade 7 | $70 \%$ | $71 \%$ | $65 \%$ |  | $73 \%$ | $71 \%$ | $72 \%$ |
| Grade 8 | $81 \%$ | $71 \%$ | $77 \%$ |  | $79 \%$ | $81 \%$ | $78 \%$ |
| Grade 10 | $80 \%$ | $86 \%$ | $90 \%$ |  | $84 \%$ | $88 \%$ | $91 \%$ |

## Mathematics

With respect to the performance of all CPS students tested in Mathematics in grades 3-10, $62 \%$ of students scored proficient or advanced in Mathematics as compared to $61 \%$ across the state. This represents a $4 \%$ increase from the prior year and a $13 \%$ increase over the past 5 years for CPS. The five year trend for the state reflects a $6 \%$ increase.

## Subgroup Performance

The proficiency of ELL/FELL and White student subgroups in Math increased by 4\% from 20122013; the performance of all other subgroups increased by 2-3\%.

There was more significant improvement in Math over a five year period. All subgroups improved by at least 5\% from 2009 to 2013.

Over the past 5 years, in Cambridge, there has been a 10\% increase in the percentage of students with disabilities scoring proficient or advanced in Math whereas at the state there has only been a $2 \%$ change in the number of students with disabilities scoring proficient/advanced.

Even with the higher proficiency rates in comparison to the state, achievement gaps persist between Low-Income and Non Low-Income students, students with Disabilities and general education students, and among different ethnic and racial subgroups.

MATH - All Grades - \% Proficient/Advanced 2012-2013

| CPS |  | STATE |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | 2012 | 2013 | 2012 | 2013 |
| All Students | $58 \%$ | $62 \%$ | $59 \%$ | $61 \%$ |
| Sts. w/ disabilities | $24 \%$ | $26 \%$ | $21 \%$ | $23 \%$ |
| ELL/FELL | $32 \%$ | $36 \%$ | $32 \%$ | $35 \%$ |
| Low-Income | $42 \%$ | $44 \%$ | $38 \%$ | $41 \%$ |
| African American/Black | $38 \%$ | $41 \%$ | $35 \%$ | $39 \%$ |
| Asian | $77 \%$ | $79 \%$ | $77 \%$ | $79 \%$ |
| Hispanic/Latino |  | $50 \%$ | $34 \%$ | $39 \%$ |
| White | $75 \%$ | $79 \%$ | $66 \%$ | $67 \%$ |
| High Needs | $40 \%$ | $43 \%$ | $37 \%$ | $40 \%$ |

MATH - All Grades - \% Proficient/Advanced 5 year trend 2009-2013

|  | CPS-Math |  | CPS <br> change | State <br> change |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 0 9}$ | $\mathbf{2 0 1 3}$ |  |  |
| All Students | $49 \%$ | $62 \%$ | $13 \%$ | $6 \%$ |
| Sts. w/ disabilities | $16 \%$ | $26 \%$ | $10 \%$ | $2 \%$ |
| ELL/FELL | $31 \%$ | $36 \%$ | $5 \%$ | $6 \%$ |
| Low Income | $31 \%$ | $44 \%$ | $13 \%$ | $7 \%$ |
| African American/Black | $31 \%$ | $41 \%$ | $10 \%$ | $7 \%$ |
| Asian | $71 \%$ | $79 \%$ | $8 \%$ | $6 \%$ |
| Hispanic/Latino | $34 \%$ | $50 \%$ | $16 \%$ | $8 \%$ |
| White | $67 \%$ | $79 \%$ | $12 \%$ | $4 \%$ |

## Math Proficiency by Grade Level

There were improvements in the percent of students scoring in the proficient/advanced categories in Math at all grades with the exception of grade 7 where there was a decrease of $6 \%$ from the prior year. The results for grade 10 remained at $83 \%$ proficiency, the same as the prior year.

In grades 3, 4, 8 and 10 CPS results were higher than the state; grade 6 results were equal to the state and grade 7 below state results by $6 \%$.

Although the results for grade 10 remain consistent from 2012, there has been a $20 \%$ increase in proficiency over a five year period. The increase in proficiency over five years across the state is 5\%.

MCAS 2013-\% Proficient/Advanced in Math by Grade Level 2011-2013

|  | CPS |  |  | State |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ |
|  | $\mathbf{2 0 1 3}$ |  |  |  |  |  |
| Grade 3 | $59 \%$ | $65 \%$ | $67 \%$ |  | $66 \%$ | $61 \%$ |
| Grade 4 | $49 \%$ | $47 \%$ | $62 \%$ |  | $47 \%$ | $51 \%$ |
| Grade 5 | $51 \%$ | $54 \%$ | $56 \%$ |  | $59 \%$ | $57 \%$ |
| Grade 6 | $53 \%$ | $56 \%$ | $61 \%$ |  | $58 \%$ | $60 \%$ |
| Grade 7 | $45 \%$ | $52 \%$ | $46 \%$ |  | $51 \%$ | $51 \%$ |
| Grade 8 | $51 \%$ | $50 \%$ | $58 \%$ |  | $52 \%$ | $52 \%$ |
| Grade 10 | $75 \%$ | $83 \%$ | $83 \%$ |  | $74 \%$ | $78 \%$ |

## Science

MCAS results for science are reported for students in grades 5, 8 and 10.
In 2013, proficiency rates increased in grades 8 and 10 from the prior year by 3\% and 4\% respectively and grade 5 results decreased by $1 \%$. Science results both in Cambridge and across the state continue to be an area of needed focus.

MCAS 2013 - \% Proficient/Advanced in Science

|  | CPS |  |  |  | State |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ |
| Grade 5 | $38 \%$ | $45 \%$ | $44 \%$ |  | $50 \%$ | $52 \%$ | $51 \%$ |
| Grade 8 | $36 \%$ | $38 \%$ | $41 \%$ |  | $39 \%$ | $43 \%$ | $39 \%$ |
| Grade 10 | $60 \%$ | $65 \%$ | $69 \%$ |  | $67 \%$ | $69 \%$ | $71 \%$ |

## Subgroup Performance

As a result of the new accountability system, the Department of Elementary and Secondary Education (DESE) began reporting MCAS Science results in the aggregate in 2012, combining together the $5^{\text {th }}, 8^{\text {th }}$, and $10^{\text {th }}$ grade results.

| CPS |  | STATE |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | 2012 | 2013 | 2012 | 2013 |
| All Students | $49 \%$ | $51 \%$ | $54 \%$ | $53 \%$ |
| Sts. w/ disabilities | $17 \%$ | $11 \%$ | $20 \%$ | $21 \%$ |
| ELL/FELL | $12 \%$ | $20 \%$ | $17 \%$ | $19 \%$ |
| Low-Income | $30 \%$ | $32 \%$ | $30 \%$ | $32 \%$ |
| African American/Black | $25 \%$ | $30 \%$ | $27 \%$ | $29 \%$ |
| Asian | $66 \%$ | $65 \%$ | $66 \%$ | $67 \%$ |
| Hispanic/Latino |  | $34 \%$ | $25 \%$ | $27 \%$ |
| White | $74 \%$ | $68 \%$ | $63 \%$ | $61 \%$ |
| High Needs | $29 \%$ | $29 \%$ | $30 \%$ | $32 \%$ |

## Growth

## MCAS 2013

## Student Growth Percentiles

The Massachusetts Department of Elementary and Secondary Education (DESE) developed a growth model of student performance as a supplement to the MCAS results. This indicator helps parents, teachers, and administrators know whether students are improving from year to year by comparing students to their "academic peers" or students with similar MCAS histories across the state.

Student growth percentile (SGP) rankings in the range of 40 to 59 are considered average while SGPs above 60 indicate higher than average growth and below 40 indicate lower than average growth in comparison to all students in the state. The new accountability system expects schools to have a median SGP of 51 to be considered on target for growth.

In Cambridge, both ELA ( $51^{\text {st }}$ percentile) and Math ( $55^{\text {th }}$ percentile) had average growth overall. Grades 6 in ELA and 4 in Math had above average growth ( 60 or higher) ; grade 8 in Math had high average growth; all other grades showed typical growth. However, grade 7 in both ELA and Math, grade 5 Math and grade 10 ELA had lower growth (below 50).

## Student Growth by Grade and Subject

|  | Cambridge Public <br> Schools |  | State |  |
| :--- | :---: | :---: | :---: | :---: |
| Grade and Subject | Median <br> SGP <br> 2012 | Median <br> SGP <br> 2013 | Median <br> SGP <br> 2012 | Median <br> SGP <br> 2013 |
| Grade 4 - English | 48.5 | 52 | 50 | 49 |

For growth to be reported, schools need to have a minimum of 20 students per grade.

## Next Steps

## Priority Actions for Improving Academic Outcomes for All Students

1. The district is engaged in the full implementation of the new Educator Evaluation system. This newly adopted system is designed to:
a. Promote growth and development amongst leaders and teachers,
b. Place student learning at the center, using multiple measures of student learning, growth, and achievement,
c. Recognize excellence in teaching and leading,
d. Set a high bar for professional teaching status, and
e. Shorten timelines for improvement

Department of Elementary and Secondary Education
2. Central office staff will work with principals to identify school specific teaching \& learning improvement strategies based on achievement data and rooted in the following *research-based quality indicators of high-achieving schools:
a. Aligned \& rigorous curriculum
b. Effective instruction
c. Use of formative assessment and student assessment data
d. Positive school climate focused on achievement
e. Effective school leadership
f. Family and community engagement
*The Center for Comprehensive School Reform \& Improvement
3. Level 3 schools will complete the Conditions for School Effectiveness Self-Assessment tool designed by the DESE. The purpose of this tool is to help schools identify strengths and areas of concern regarding practices in place needed to ensure the education of all children.
4. All schools will engage in an ongoing district-guided, cohesive School Improvement Planning process: Development, Implementation, and Monitoring. As part of this process, the Teaching \& Learning Team will conduct an internal review of all plans including two annual benchmarking check-ins.
5. The district is implementing Response to Intervention (RTI) in all elementary schools. RTI is a tiered system of instruction designed to ensure that all students receive high quality core instruction with proper supports and interventions before achievement gaps develop.
6. The district will work with the District and School Assistance Center (DSAC). This DESE established center provides targeted technical support to school districts across the Commonwealth for the purpose of improving instruction and raising achievement for all students.
7. The Office of Curriculum, Instruction, and Assessment will launch a 6-step cyclical process by which all district curricula is analyzed, designed, implemented and evaluated in a systematic and collaborative manner.
8. The district will engage in a collaborative process with teachers and administrators to build and align a comprehensive professional development plan in order to more effectively support school, department, and district sponsored opportunities. The vehicle for this work will be district Professional Development Committee.
9. The Office of Student Services is currently engaged in a Strategic Planning process to identify and articulate the direction of the department over the next three-five years. Key components of this process include: vision, mission, values, and a roadmap.
10. To support the academic success of our English Language Learners, all teachers and administrators will complete Massachusetts Rethinking Equity and Teaching for English Language Learners (RETELL) training.
