

After School Childcare: Common Choices of Families

The following list provides a starting point for families seeking after-school childcare. For each school, the programs that are most commonly chosen by families are listed.

- **Most programs will happily meet children at a bus stop who come from another school, and this is therefore not a comprehensive list. Please visit Find it Cambridge to research all of your options.**
- Community School programs are listed below, but please keep in mind that this is an enrichment program and not full-time childcare. Programming is not available between terms, and on early release days, special field trips are offered for an additional fee, instead of regular programming.

School	Program	How to Get There	Phone Number
